

PATCH 51

Scheduled to be released to the field, Sunday, November 02, 2003 at 9:00 A.M. CST

Database and client changes.

PROBLEM REPORT NUMBER	REPAIR	Initiated By	Critical Function
	<p>Summary: Refresh is not working from DCPDS to Resumix.</p> <p>Resolution: A character data in the PERM_GR field of the Resumix refresh staging tables is causing the refresh to fail. This problem has earlier reported in PR# 10690 and requested CRT/SCR for a permanent fix. The PERM_GR considered as an integer value in the initial design of refresh process. Present HR system we have several valid PERM_GR includes the character data and that will cause the refresh to stop. The quick fix to this problem until the CRT/SCR process, to eliminate all person's record that includes character data in PERM_GR. In this case instead of stopping the complete refresh process, it will reject the person's record that includes character in PERM_GR and continue the process for other records. I have modified CIV_RESUMIX_REFRESH procedure for this quick fix.</p>		
TD 9370	<p>Summary: Poor CSU Refresh Performance.</p> <p>Resolution: Corrected the following problems.</p> <ol style="list-style-type: none"> 1. Moved load codes after CSUDB refresh driver process so jobs start sooner. 2. Removed parallelism from analyze. 3. Added timestamps. 4. Moved pay element pull forward in script. 5. Remove an unused index. 6. Added the date notification sent to the GHR PA Routing History index. 7. Changed to 4 percent, remove parallelism. Removed separations, etc, to separate files (for CMIS compatibility). 8. In the load package changed the order by clause and the PVCS header. 9. Created a base users create script for making all the regions look alike. 	CPMS	Resumix
Remedy 13635	<p>Summary: EOP Extract File missing items.</p> <p>Resolution: Corrected erroneous input value name to retrieve WGI Last Equivalent Increase and also corrected the driving query to retrieve Position End Date for expired positions.</p>	CPMS	CSU
Remedy 13768		EOP	External Interfaces

	<p>Summary: Request to have dentm005 password reset.</p> <p>Resolution: Payroll rejects were individual reports in the past. CRT 02-046-AF was implemented to change them to a no-page eject RIP. To do this, Oracle Table PER_BOOKINGS was used. It was unknown at the time of development that this table would reject any duplicate record, only allowing one entry per employee. Currently multiple transactions can exist in an incoming package from DFAS for an employee for the same event ("1MF" and "1MY" transactions only). This is causing "exception on insert" errors. Solution is to customize core bookings table and API. Modified Payroll Reverse Interface process for transactions "1MF" and "1MY". Report entries will now be stored in CIVDOD_PER_BOOKINGS versus PER_BOOKINGS. Modified all Payroll Reverse Interface code pertaining to "1MF" and "1MY" transactions including reports to use custom table and API. New customized API will allow multiple entries in custom bookings table there by eliminating "exception on insert" errors.</p>		
Remedy 13771		CPMS	Unix
	<p>Summary: Global Userids not Populating Automatically to Group boxes.</p> <p>Resolution: Modified the procedure to populate Global Users into the Group Box.</p>		
Remedy 13842	<p>Summary: ORA-01861 error in process log for Suspense SIT Retrieve program.</p> <p>Resolution: Corrected the code to retrieve data from another Key Flex field view to correct the ORA-01861 error.</p>	AF	Secure User
Remedy 13872	<p>Summary: ORA-20001 error in process log for TSP Suspense Element API.</p> <p>Resolution: Added the suffix containing the request id to the program name used in the error messages. This corrected the duplicate error problem. The new error program name contains the request id.</p>	DoDEA	Other
Remedy 13874	<p>Summary: Remark incorrect from system generated change in tenure 880 NOA.</p> <p>Resolution: Modified date from canonical to print the Remark in 'DD-MON-YYYY' Format for Remark Code 'T07' and '515'</p>	DoDEA	Other
Remedy 13878	<p>Summary: CAO & Inter Agency Transfer notifications not received by Gain GB.</p> <p>Resolution: Gaining Agency submitted Change in Appointing Office and Inter Agency Transfer Requests, they are not being received in the gaining agency's CAO group box and data has to be manually input. The table structures on the EXITS server was not</p>	DFAS	Remarks
Remedy 13909		DeCA	CAO

	<p>consistent with the structures at the regions. Also, the wrong version of package civ_int_cao was on the EXITS server. Dropping all CAO/Inter Agency tables at the regions and at the EXITS server. Recreating the tables using the new scripts that are consistent with each other. Promoting the correct version of package civdod_int_cao to the EXITs server.</p> <p>NOTE: ALL CAO DATA INCLUDING PENDING DATA WILL BE DELETED. ALL CAOs CURRENTLY IN PROGRESS WILL NEED TO BE REACOMPLISHED.</p> <p>Summary: Change in organization code for AFRH-Gulfport doesn't produce Pay500 NOA JEJ for Payroll.</p> <p>Resolution: When coding for AFRH (Retirement Home) Business Rules were applied that apply for NV and as Navy does not produce an Org Structure Id. Code has been corrected to not output an Org Structure Id to Payroll for AFRH.</p>	AFRH	Pay Interface
Remedy 13910	<p>Summary: Secure User Build (Global User) not populating Routing Group.</p> <p>Resolution: Modified the procedure to populate Global Users in to Group Box.</p>		
Remedy 13981	<p>Summary: APP-PER-52994 Error when Processing Personnel Actions.</p> <p>Resolution: Modified the following.</p> <ol style="list-style-type: none"> 1. A value has been provided for a non-enabled or non-existent descriptive flex field segment. (Aei_information12 of DDF CIVDOD_ASG_AR_AGR, Value = 01-MAY-2002). 2. A value has been provided for a non-enabled or non-existent descriptive flex field segment. (Aei_information5 of DDF CIVDOD_ASG_AR_AGR, VALUE = 2003/08/23 00:00:00). 3. Scripts have been created to correct Aei_Information12 coming from CIVDOD_ASG_AR_AGR DDF and Aei_information5 coming from GHR_US_ASG_NTE_DATES DDF. 	AF	Secure User
Remedy 14013	<p>Summary: Cannot Build any Foreign Service Positions.</p> <p>Resolution: The Position Additional Information "FS Comp Category", which is a required data element for Foreign Service Positions, had incorrect validation clauses in the Value Set. Modified value set CIVDOD_FS_COMP_CAT_V to correct the validation clauses.</p>	NGB	Other
Remedy 14025		IBB	Positions

	<p>Summary: PAD files erring at Region26 (AFRH).</p> <p>Resolution: In Patch 50.8, Remedy updated two erroneous Flex Structure Names (Employee Leave Info and Earnings And Pay) and their corresponding id_flex_nums The Key Flex Fields were also recompiled. Later it was discovered the Key Flex Fields were not enabled, therefore the date segments were not converted to canonical form during the 11i upgrade. This script modifies the dates in those Key Flex fields that are not in canonical format. It will also cleanup any orphaned per analysis criteria records with erroneous date formats.</p>	CPMS	Payroll Reverse (PAD)
Remedy 14068	<p>Summary: Rpt WGIAU - Missing information.</p> <p>Resolution: Changed code on report to ensure that Date Last Equivalent Increase data is being retrieved. Also, removed the extra zeros that were appearing after the date.</p>		
Remedy 14188	<p>Summary: Report APEX1 - missing Pay Plan, Series, and Grade on report.</p> <p>Resolution: Added two functions to pull in the Pay Plan, Series, and Grade for the APEX1 Report.</p>	Navy	Reports
Remedy 14191	<p>Summary: CSUDB_DRUG_TEST_SECV Not Refreshing.</p> <p>Resolution: Removed the NOT NULL constraint on Exam Type field in the Drug Test table. Changed the primary key to include only the SSAN and Exam Date.</p>	Navy	Reports
Remedy 14238	<p>Summary: CSU rounds retention allowance for FWS employees.</p> <p>Resolution: Changed the column retention allowance in the basic pay table to NUMBER data type with no length or precision.</p>	AF	CSU
Remedy 14243	<p>Summary: Position validate process was not establishing the link between position and manpower data. The package used for this process was exiting out of the process when manpower link doesn't exist.</p> <p>Resolution: Modified the code to proceed with the linking process when the manpower link doesn't exist.</p>	CPMS	CSU
Remedy 14262		AF	Other

	<p>Summary: Agency Code is incorrect in block 47.</p> <p>Resolution: On Notification of Personnel Action NGB, the agency Code is incorrectly displayed in block 47 and is in disagreement with the "Guide to Personnel Data Standards" and the "Guide to Processing Personnel Actions" that states "the first and second positions of the code indicate the agency and the third and fourth positions indicate the subdivision or sub-element."</p> <p>Corrected Agency code in block 47</p> <table><tr><td>From:</td><td>To:</td></tr><tr><td>NGAF</td><td>AFNG</td></tr><tr><td>NGZG</td><td>ZGNG</td></tr><tr><td>NGAR</td><td>ARNG</td></tr></table>	From:	To:	NGAF	AFNG	NGZG	ZGNG	NGAR	ARNG		
From:	To:										
NGAF	AFNG										
NGZG	ZGNG										
NGAR	ARNG										
Remedy 14278		NGB ARG	Agency Unique								
	<p>Summary: Submit Processes and Reports.</p> <p>Resolution: A script was created that modifies profile option "Concurrent: Report Access Level" to User level. The user will only see his/her requests when they do View--> Requests.</p>										
Remedy 14279		DoDEA	NPA/50								
	<p>Summary: DAWAI codes no longer available (004907 and 004908).</p> <p>Resolution: Oracle Fed erroneously end-dated all academic codes beginning with '00'. After checking the academic codes on several different databases, I found that each database had a total of 36 academic codes that began with '00'. However some databases had 32 codes with end dates and others had 34 codes with end dates. To ensure consistency across all databases, the end dates from the codes have been removed and promoting all 36 academic codes that start with "00".</p>										
Remedy 14280		AF	Other								
	<p>Summary: Mass Appraisal Load Browse Button Difficult to Read.</p> <p>Resolution: Made changes to Browse Button, also made cosmetic changes to the layout. Buttons and other Items are aligned. Increased the length of items to avoid numeric or value errors.</p>										
Remedy 14291		AF	Appraisals								
	<p>Summary: NOA 385 - Error Msg is referring to NOA 386 that is no longer in use.</p> <p>Resolution: Modified the following.</p> <ol style="list-style-type: none">1. Corrected message text for the separation from rolls reason messages.2. Corrected the separation from rolls procedure to handle '88' separation reason.										
Remedy 14296		Navy	Separations								
	<p>Summary: 11i CSU missing leave report.</p> <p>Resolution: Changed the mapping of the column 'USED THIS PP' to point to the correct data element.</p>										
Remedy 14298		AF	CSU								

Remedy 14299	<p>Summary: No LOV for PCS Cost Indicator.</p> <p>Resolution: There was a value missing in the LOV for PCS Cost Indicator. Wrote migration script to take care of this problem.</p> <p>Summary: Vacancy Indicator is not changing.</p> <p>Resolution: Added the code to update the Vacancy Indicator for AGR positions. Removed all the call for GHR APIS from the AGR process and used HR APIs to write history properly. Created the script to fix the data for vacancy indicator for AGR positions. This script will also update the history.</p>	CPMS	Training
Remedy 14326	<p>Summary: Long List Reduction - Valid Grade.</p> <p>Resolution: Segments "NAFI Position", "Activity", "Personnel Office ID" and "Position Organization" are little different than rest of long list of values (they need current position id to validate). The original problem with long list of values was fixed with Family Pack F. Problem with the above mentioned fields has been fixed with Remedy 14182.</p>	NGB AGR	Positions
Remedy 14340	<p>Summary: Denial of WIGI erroneously setting WIGI Due/Pay Date.</p> <p>Resolution: Modified package not to recalculate WGI date for NOA 888.</p>	CPMS	System Fundamentals
Remedy 14346	<p>Summary: Mass Award 841 auto-populating award type 9L.</p> <p>Resolution: Modified code to remove auto-population of award type to '9L' for Mass Award 841.</p>	DeCA	WIGIs
Remedy 14358	<p>Summary: Danger Pay generating for incorrect effective date on Pay 500.</p> <p>Resolution: The change in the Danger Pay Element is now sending the correct effective date to Payroll, when the Element is Date Tracked.</p>	DeCA	Mass Awards
Remedy 14361	<p>Summary: Separation error APP-GHR-38673 after cancellation of 3XX action.</p> <p>Resolution: There were actually two problems and the solution for both problems was corrected. The problems were:</p> <ol style="list-style-type: none"> 1. For the 3XX, then Cancel, then re-apply 3XX. The error was that the cancellation program wasn't deleting the US Fed Conduct Perf and this was causing the error when trying to re-apply. 2. The error with CAO separations. The problem was the way that the session was being set. Also corrected the code to show the full error text. 	DFAS	Benefits and Entitlements
Remedy 14466	<p>Summary: Separation error APP-GHR-38673 after cancellation of 3XX action.</p> <p>Resolution: There were actually two problems and the solution for both problems was corrected. The problems were:</p> <ol style="list-style-type: none"> 1. For the 3XX, then Cancel, then re-apply 3XX. The error was that the cancellation program wasn't deleting the US Fed Conduct Perf and this was causing the error when trying to re-apply. 2. The error with CAO separations. The problem was the way that the session was being set. Also corrected the code to show the full error text. 	DLA	Separations

Remedy 14469	<p>Summary: CIVLN_APEX2 is trying to generate for LN records.</p> <p>Resolution: Disabled the code producing the report civiln_apex2.</p> <p>Summary: The Contact Info Button is missing on Complaints Form.</p>	Navy	Reports
Remedy 14490	<p>Resolution: Modified The Workflow. Added node for Contact Info Form.</p> <p>Summary: NOA 703 Received error on Supervisor Differential when employee has none.</p> <p>Resolution: Modified the procedures to pull in the correct values. Removed DBMS statements from the package.</p>	Army	Cats
Remedy 14512	<p>Summary: DCPS Daily Pay 500 Report prints only the headings.</p> <p>Resolution: The date parameters for Pay500 were CIVDOD_DATE4 instead of FND_STANDARD_DATE_REQUIRED. This cause that the day entered where interpreted incorrectly by the report. Migrating the parameters will correct this problem.</p>	Navy	Pay
Remedy 14515	<p>Summary: Navy unique End-dated NOAs err out on cancellation/correction.</p> <p>Resolution: Changed the end dates of NOA codes and enabled them.</p>	DFAS	Reports
Remedy 14522	<p>Summary: NV-011a Official Training Report shows no SSAN, Grade and Pay Plan.</p> <p>Resolution: Modified the reports to show the correct data. Note: When this report is requested the user has the opportunity to input four parameters: Date, SSAN, Delivery Set, and Reason for Request. I've found the first two parameters must be input, even though only the SSAN field has a yellow background. If the date is omitted, I'm getting a blank report - just the header and footer. When I input a date (as well as the employee's SSAN), all data is printed properly.</p>	Navy	Cancellations
Remedy 14545	<p>Summary: Acquisition Contracting Officer DDF Blank.</p> <p>Resolution: On the DLA Region we have a mismatch of id_flex_num between the Person Analyses and the Analysis Criteria table. This script will fix the anomaly.</p>	Navy	Reports
Remedy 14552	<p>Summary: Legal Authority Code ZJW is not available in DOD Correction of NOA 473.</p> <p>Resolution: A script has been created that will add the Legal Authority Codes V8K, V8N, Z2U, Z2W, ZJV, ZJW, and ZVC to NOA Code C473 (part of CRT 03_6838_ARM).</p>	DLA	Other
Remedy 14574		Army	LACs

Remedy 14575	<p>Summary: Records still contain double Element entries after a CRT fix.</p> <p>Resolution: This Remedy is for a fix that erred out (CRT 03-7914-DoD). This script deletes their current pay elements and values and creates new ones with the correct dates and values. The error was caused by not deleting the WGI pay elements before creating new ones.</p>	AF	Other
Remedy 14586	<p>Summary: HR Correction NOA 773 missing SSN in Block 2 of RPA.</p> <p>Resolution: This script will remove the association of the family code LN_EXT_BE_PM to NOA 773 and will eliminate the error of SSAN being blanked out which was caused by this association.</p>	AF	Corrections
Remedy 14593	<p>Summary: Invalid Edit: Bargaining Unit Status must = 8888 when Job = 0201.</p> <p>Resolution: The procedure has been modified to remove the invalid edit.</p>	Army	Positions
Remedy 14633	<p>Summary: CARBRF (RP602) sorted/printed dates on Appraisal Data incorrectly.</p> <p>Resolution: Changed sorted column to segment3 to sort the Appraisal dates correctly.</p>	AF	Reports
Remedy 14638	<p>Summary: CSU refresh not updating Separation staging tables completely.</p> <p>Resolution: Commented the availability status not equal to '5' statement from the CSUDB Separation view for PR 14638.</p>	DFAS	CSU
Remedy 14673	<p>Summary: The PARIS Concurrent Manager job at REG03 appears to be in a loop.</p> <p>Resolution: Previous version of code to support deleting uncompleted RPA unintentionally dropped links between RPA corrections/cancellations and the origination RPA. The first version of the data fix corrected the correction/cancellation RPA that were in Completed status. The second version of the data fix corrected the corrections/cancellation RPA for all statuses except for 'CANCELED'. This version of the data fix will fix any dual NOA correction/cancellations. Changed data script to re-link the Correction / Cancellation RPA to their origination RPA if the correction/ cancellation was for a RPA that was a dual NOA. The results of the data fix will be logged in the Process Log (Federal) under program name R14673. Once the script is run at the regions, a spreadsheet of the remaining unlinked corrections/cancellations will be provided to the regions.</p>	CPMS	Other

Remedy 14701	<p>Summary: DMDC Status file not generating "1" in cc 105 of the Status field.</p> <p>Resolution: Fixed code that was setting the military technician flag to null.</p>	NGB	Reports
Remedy 14719	<p>Summary: TSP Employee Contribution Eligibility. Date not updating DCPDS (IVRS Interface).</p> <p>Resolution: Corrected invalid date format in the API procedure. Also modified the procedure where the employee contribution eligibility date was being incorrectly passed and not updating HR correctly.</p>	AF	Benefits and Entitlements
Remedy 14733	<p>Summary: Data not populating on RPA for NOA Codes 810/5, 001 and 002 to Appointment.</p> <p>Resolution: Regenerating history data for missing records. Once history is generated all the fields in RPA will be auto-populated with right values (for subsequent or correction/cancellation actions).</p>	Army	RPA/52
Remedy 14777	<p>Summary: Getting trigger error FRM-40735 while updating NOA Codes 170/171.</p> <p>Resolution: Corrected the incoming parameter type from DATE to VARCHAR2 for local cursor in the appraisal procedure.</p>	Navy	Appointments
Remedy 14796	<p>Summary: Unable to Update Performance Appraisal Area.</p> <p>Resolution: Code modified to allow appraisal period end date to be not greater than SYSDATE but allow it until end of the month.</p>	NGB	Appraisals
Remedy 14854	<p>Summary: Update HR errors out 'CIVDOD_JPAS_UPD_PROTECTED'.</p> <p>Resolution: SCR 03-9099-DoD corrected the problem of the JPAS edit wrongly firing for non-DoD Agencies, and modified the edit to confine to JPAS columns against update and not the entire Security Appointment Info DDF for DoD Agencies.</p>	IBB	External Interfaces

Summary: Identification of PAY500 Formats from Payroll Regeneration. The following modifications were completed.

1. Provided a field in the control fields in the PAY500 table to reflect a value of "R" when the PAY500 format was created by the Payroll Regeneration process. The field is visible in the PAY500 view screen for each transaction and will reflect null when the transaction is produced by normal system processes. This field is NOT part of the PAY500 format transmitted to DCPS
2. Created a new report named PAYROLL REGENERATION ACTIVITY REPORT that can be executed by a user with US FED HR Manager responsibility => Submit process and reports. In the report output each data element is delimited by a tilde character (~) this will allow the user to save the report output as text after viewing the output (View => Requests => view output) as text file and look at the report in EXCEL by opening through EXCEL.

SCR 03-6473-DoD

CPMS

Pay Interface

Summary: CPMS-164-05/08/2003 CSU Additions, Deletions and Modifications. Changed the zip code to remove only dashes for addresses table. Dropped the NOA_TRANSACTIONS and AF_VOL_CAREER_PROG tables and code associated with it. Changed the incentive award data type to NUMBER in the LN employee awards table. Changed the awards screen to increase the width of the field. Added orig_appointment_auth_code1 and orig_appointment_auth_code2 to regional report data table. Populated the fields from GHR_US_PER_GROUP1. Added the retirement annuity sum to the regional report data table. Populated the field from Pay Element Entry Values for Retirement Annuity and Sum. Added age to separation table. Populated the field with difference between Date of Birth and Effective date. Added veterans preference to the separation table. Populated the field from GHR_US_PER_SF52. Created a new table NOA Descriptions for storing the NOA codes and its description. Loaded the NOA Descriptions table from the GHR Nature of Actions. Added a new function to CSUDB utilities to get the clear text or description for NOA codes. Changed the separation secv to include the clear texts for first NOA Code and Second NOA Code.
